ARCHIVES OF ORAL BIOLOGY

EDITORS-IN-CHIEF

Dr D. B. FERGUSON, Department of Physiological Sciences, Stopford Building, University of Manchester, Manchester M13 9PT, England, U.K.

Dr E. J. KOLLAR, Department of Oral Biology, University of Connecticut Health Center, Farmington, CT 06032, U.S.A.

FOUNDER EDITORS

Professor I. R. H. KRAMER
Professor A. E. W. MILES
Professor M. A. RUSHTON

ACCEPTING EDITORS

Dr R. M. HOPPS, Department of Oral and Maxillofacial Surgery, Institute of Dental Surgery, 256 Gray's Inn Road, London WC1X 8LD, England, U.K.

Professor T. LEHNER, Department of Immunology, Guy's Hospital, Guy's Tower, Floor 28, London SE1 9RT, England, U.K.

Dr J. SODEK, Faculty of Dentistry, University of Toronto, Ontario M5S 1A8, Canada

ADVISORY BOARD

W. H. BOWEN (Rochester, U.S.A.)
W. T. BUTLER (Houston, U.S.A.)
G. CIMASONI (Geneva, Switzerland)
M. W. J. FERGUSON (Manchester, U.K.)
S. HAMADA (Osaka, Japan)
M. C. HERZBERG (Minneapolis, U.S.A.)
M. J. LEVINE (Buffalo, U.S.A.)
J. R. MARTINEZ (Albuquerque, U.S.A.)
C. E. NORD (Stockholm, Sweden)
H. E. SCHROEDER (Zurich, Switzerland)
B. J. SESSLE (Toronto, Canada)
M. TRILLER (Paris, France)
J. P. WATERHOUSE (Glasgow, U.K.)
J. A. WEATHERELL (Leeds, U.K.)

Editorial Assistant: Dr M. Edwards

AIMS AND SCOPE

The *Archives of Oral Biology* publishes papers concerned with advances of knowledge of every aspect of the oral and dental tissues and bone over the whole range of vertebrates, whether from the standpoint of anatomy, bacteriology, biophysics, chemistry, DNA biotechnology, epidemiology, genetics, immunology, molecular biology, palaeontology, pathology, physiology or otherwise.

Publishing Office: Pergamon Press plc, Journals Production Unit, Hennock Road, Marsh Barton, Exeter, Devon EX2 8NE, England (*Tel.* Exeter (0392) 51558; *Telex* 42749)

Subscription and Advertising Offices: North America: Pergamon Press Inc., Maxwell House, Fairview Park, Elmsford, NY 10523, U.S.A. Rest of the World: Pergamon Press plc, Headington Hill Hall, Oxford OX3 0BW, England (*Tel.* Oxford (0865) 64881).

Annual Subscription Rates 1990: Annual institutional subscription rate (1990) DM 1340.00; 2-year institutional rate (1990/91) DM 2546.00; personal subscription rate for those whose library subscribes at the regular rate (1990) DM 158.00. Prices are subject to amendment without notice.

Published monthly

Back Issues

Back issues of all previously published volumes, in both hard copy and on microform are available direct from Pergamon Press offices.

Copyright © 1989 Pergamon Press plc

It is a condition of publication that manuscripts submitted to this journal have not been published and will not be simultaneously submitted or published elsewhere. By submitting a manuscript, the authors agree that the copyright for their article is transferred to the publisher if and when the article is accepted for publication. However, assignment of copyright is not required from authors who work for organizations which do not permit such assignment. The copyright covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microform or any other reproductions of similar nature and translations. Photocopying Information for Users in the U.S.A.

The Item-fee Code for this publication indicates that authorization to photocopy items for internal or personal use is granted by the copyright holder for libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service provided the stated fee for copying beyond that permitted by Section 107 or 108 of the U.S. Copyright Law is paid. The appropriate remittance of $3.00 per copy per article is paid directly to the Copyright Clearance Center Inc., 27 Congress Street, Salem, MA 01970.

Permission for Other Use

The copyright owner's consent does not extend to copying for general distribution, for promotion, for creating new works or for resale. Specific written permission must be obtained from the publisher for such copying.

The Item-fee Code for this publication is: 0003-9969/89 $3.00 + 0.00

♾™ The paper used in this publication meets the minimum requirements of American National Standard for Information Sciences—Permanence of Paper for Printed Library Materials, ANSI Z39.48-1984.

LIST OF CONTENTS

NUMBER 1

	INSTRUCTIONS TO CONTRIBUTORS	I
T. ZELLES, M. G. HUMPHREYS-BEHER and C. A. SCHNEYER	Effects of liquid diet on amylase activity and mRNA levels in rat parotid gland	1
S. H. ASHRAFI and J. P. WATERHOUSE	Elemental and cytochemical localization of calcium in rat cheek epithelium	9
JÜRG SCHMID and DONALD A. CHAMBERS	Molecular characterization of plasminogen activator in human supragingival plaque	17
D. O. QUISSELL, L. M. DEISHER and K. A. BARZEN	Activation and distribution of rat parotid cAMP-dependent protein kinase following beta-adrenergic receptor stimulation *in vitro*	23
H. F. THOMAS and E. J. KOLLAR	Differentiation of odontoblasts in grafted recombinants of murine epithelial root sheath and dental mesenchyme	27
K. NOGUCHI, I. MORITA and S. MUROTA	The detection of platelet-activating factor in inflamed human gingival tissue	37
R. L. WIJEYEWEERA and I. KLEINBERG	Arginolytic and ureolytic activities of pure cultures of human oral bacteria and their effects on the pH response of salivary sediment and dental plaque *in vitro*	43
R. L. WIJEYEWEERA and I. KLEINBERG	Acid–base pH curves *in vitro* with mixtures of pure cultures of human oral microorganisms	55
Short Communication A. CASASCO, A. CALLIGARO, C. MARCHETTI, P. POGGI, S. BRUGNATELLI, M. DANOVA and R. FIOCCA	Immunocytochemical detection of proliferating cells in the rat tooth germ by monoclonal antibodies against 5-bromo-2′-deoxyuridine	65

NUMBER 2

A. L. SYMONS, R. N. POWELL, G. J. SEYMOUR and D. J. HARBROW	Disturbances of tooth form and eruption in the microphthalmic (mi) mouse: a light and electron microscopic study	71
D. PAXINOS-MAROUDAS, R. N. POWELL and G. M. NEWCOMB	Ultrastructure of the tibial epiphyseal growth plate in microphthalmic (mi/mi) mice	77
P. R. WILSON and A. D. BEYNON	Mineralization differences between human deciduous and permanent enamel measured by quantitative microradiography	85
R. FUJISAWA and Y. KUBOKI	Changes in levels of osteonectin in bovine dentine during tooth development	89
D. R. EISENMANN, J. CHEN, G. LEHMAN and A. EL-MONEIM ZAKI	Studies on the influx of [^{3}H]-histidine and ^{45}Ca through a surgical opening to rat incisor ameloblasts and adjacent enamel	93
T. KAWASE and A. SUZUKI	Studies on the transmembrane migration of fluoride and its effects on proliferation of L-929 fibroblasts (L cells) *in vitro*	103
A. WOLFF, J. E. MOREIRA, Y. MARMARY and P. C. FOX	Lack of acute effects of methotrexate on rat parotid salivary gland function	109
A. I. SPIELMAN and A. BENNICK	Isolation and characterization of six proteins from rabbit parotid saliva belonging to a unique family of proline-rich proteins	117
L. C. ANDERSON and E. MIXSON	α-Aminoisobutyric acid transport in isolated rat submandibular salivary acinar cells	131

E. D. SCHNEIDERMAN — A longitudinal cephalometric study of incisor supra-eruption in young and adult rhesus monkeys (*Macaca mulatta*) 137

Short Communication
M. MURAKAMI, T. NAGATO, H. TANIOKA and Y. UEHARA — Morphological changes in the myoepithelial cells of the rat sublingual salivary gland during differentiation as shown by the nitrobenzoxadiazole–phallacidin fluorescent method 143

NUMBER 3

J. R. MARTINEZ and J. CAMDEN — Ca^{2+} mobilization and Cl efflux in submandibular salivary cells of adult and newborn rats 147

Y. CAM, A. BOUKARI and J. V. RUCH — Stimulatory effect of transferrin on the proliferation of embryonic mouse molar pre-odontoblasts and pre-ameloblasts in organ culture 153

S. OHMURA, S. HORIMOTO and K. FUJITA — Lectin cytochemistry of the dark granules in the type 1 cells of Syrian hamster circumvallate taste buds 161

F. J. DOWD, J. A. PASIENIUK, A. R. HAND, P. H. CHEUNG and D. W. HAINES — Characteristics of anion-stimulated Mg-ATPase from rat parotid gland secretory granules 167

Y. HAMAMOTO, T. NAKAJIMA and H. OZAWA — Ultrastructure of epithelial rests of Malassez in human periodontal ligament 179

A. NELL, G. MAILATH, H. PORTEDER, W. ULRICH, H. SINZINGER and M. MATEJKA — Enhancement of human dental cyst PGI_2 formation by platelet derived growth factor and its role in cyst growth and bone resorption 187

A. OLIVEBY, F. LAGERLÖF, J. EKSTRAND and C. DAWES — Influence of flow rate, pH and plasma fluoride concentrations on fluoride concentration in human parotid saliva 191

J. CARTER, A. C. SMILLIE and M. G. SHEPHERD — Purification and properties of a protease from developing porcine dental enamel 195

K. YASHIRO, Y. KAMEYAMA, M. MIZUNO, A. OKADA and Y. YOKOTA — Comparison of phospholipid *N*-methylation activity in rat submandibular salivary gland and liver 203

U. MANDEL and A. VIIDIK — Effect of splinting on the mechanical and histological properties of the healing periodontal ligament in the vervet monkey (*Cercopithecus aethiops*) 209

Short Communication
S. W. COX and B. M. ELEY — Identification of a tryptase-like enzyme in extracts of inflamed human gingiva by effector and gel-filtration studies 219

NUMBER 4

M. DARD, L. M. KEREBEL and B. KEREBEL — A transmission electron microscope study of fibroblast changes in human deciduous tooth pulp 223

B. L. SLOMIANY, V. L. N. MURTY, I. D. MANDEL, G. ZALESNA and A. SLOMIANY — Physico-chemical characteristics of mucus glycoproteins and lipids of the human oral mucosal mucus coat in relation to caries susceptibility 229

A. J. THEXTON and J. D. MCGARRICK — Tongue movement in the cat during the intake of solid food 239

A. H. M. SHABANA, J. P. OUHAYOUN, M. H. SAWAF and N. FOREST — A comparative biochemical and immunological analysis of cytokeratin patterns in the oral epithelium of the miniature pig and man 249

A. EPIVATIANOS and J. D. HARRISON — The presence of microcalculi in normal human submandibular and parotid salivary glands 261

A.-M. BOLLEN, K. K. MAKINEN, P.-L. MAKINEN and D. S. CARLSON — Collagenolytic and phosphatase activity in the rat mandible after functional protrusion 267

R. W. A. LINDEN and B. J. MILLAR — The effect of vibration on the discharge of periodontal ligament mechanoreceptors to controlled loading of the cat canine tooth 275

R. A. LINDEMANN and N.-H. PARK — The effects of benzo(a)pyrene, nicotine, and tobacco-specific *N*-nitrosamines on the generation of human lymphokine-activated killer cells 283

I. AL-HASHIMI and M. J. LEVINE — Characterization of *in vivo* salivary-derived enamel pellicle 289

Short Communications

J. NICOLAU and F. D. FERREIRA — Adenine nucleotide changes in submandibular salivary glands of rats following isoproterenol or incisor tooth amputation 297

U. SKALERIČ, J. BABNIK, V. ČURIN, T. LAH and V. TURK — Immunochemical quantitation of cysteine proteinase inhibitor cystatin *C* in inflamed human gingiva 301

NUMBER 5

R. D'SOUZA, L. R. BROWN, J. R. NEWLAND, B. M. LEVY and L. B. LACHMAN — Detection and characterization of interleukin-1 in human dental pulps 307

J. SCOTT and E. GRADWELL — A quantitative study of the effects of chronic hypoxia on the histological structure of the rat major salivary glands 315

M. KELLETT, W. J. HUME and C. S. POTTEN — A topographical study of the circadian rhythm in labelling index of mouse gingival and floor-of-mouth epithelium, including changes in labelling activity with individual cell position on the epithelial ridges 321

S. M. HIGHAM and W. M. EDGAR — Human dental plaque pH, and the organic acid and free amino acid profiles in plaque fluid, after sucrose rinsing 329

C. G. EMILSON, J. E. CIARDI, J. OLSSON and W. H. BOWEN — The influence of saliva on infection of the human mouth by mutans streptococci 335

S. Y. NG, P. A. PAYNE, N. A. CARTLEDGE and M. W. J. FERGUSON — Determination of ultrasonic velocity in human enamel and dentine 341

C. BRANTING, M.-L. SUND and L. E. LINDER — The influence of *Streptococcus mutans* on adhesion of *Candida albicans* to acrylic surfaces *in vitro* 347

A. M. BEAL — The effect of β-sympathomimetic stimulation on parotid salivation in the red kangaroo (*Macropus rufus*) 355

K. ABE, T. OOSHIMA, S. SOBUE and Y. MORIWAKI — The crystallinity of human deciduous teeth in hypophosphataemic vitamin *D*-resistant rickets 365

Short Communications

J. D. WALTERS, J. LOCAFFARO and F. M. BECK — Relationship of human gingival crevicular fluid polyamine concentration to the percentage of spirochaetes in subgingival dental plaque 373

C. A. FRANCIS and P. M. FARTHING — The response of Langerhans cells to palatal cover plates in the rat 377

A. J. COELHO and B. J. MOXHAM — The intrusive mobility of the incisor tooth of the guinea pig 383

M. S. TYLER — Promotion of osteogenesis by extra-embryonic epithelia in maxillary mesenchyme of the embryonic chick 387

Corrigendum i

NUMBER 6

INSTRUCTIONS TO CONTRIBUTORS I

J. O. KATZ, J. D. RUGH, J. P. HATCH, R. P. LANGLAIS, G. T. TEREZHALMY and S. H. BORCHERDING — Effect of experimental stress on masseter and temporalis muscle activity in human subjects with temporomandibular disorders 393

P. K. DENBESTEN and L. M. HEFFERNAN — Separation by polyacrylamide gel electrophoresis of multiple proteases in rat and bovine enamel 399

J. KIRKHAM, C. ROBINSON and J. SPENCE — Site-specific variations in the biochemical composition of healthy sheep periodontium 405

S. DAJEAN and J. MENANTEAU — A Western-blotting study of enamel glycoproteins in rat experimental fluorosis 413

D. G. A. NELSON, G. E. COOTE, I. C. VICKRIDGE and G. SUCKLING — Proton microprobe determination of fluorine profiles in the enamel and dentine of erupting incisors from sheep given low and high daily doses of fluoride 419

Y. ADACHI and H. NOHARA — Separation and partial characterization of three forms of collagenase inhibitor from bovine gingiva 431

A. EL-NOFELY, L. SADEK and N. SOLIMAN — Spacing in the human deciduous dentition in relation to tooth size and dental arch size 437

A. YAMASAKI and G. J. PINERO — An ultrastructural study of human epithelial rests of Malassez maintained in a differentiated state *in vitro* 443

J. P. NAFTEL — Reduction in sympathetic neuronotrophic activity in the pulp of the cat canine tooth after denervation 453

R. A. LINDEMANN and F. EILBER — Activation of human natural killer cells by lipopolysaccharide from *Actinobacillus actinomycetemcomitans* 459

K. ISHIZEKI, N. FUJIWARA and T. NAWA — Morphogenesis of mineralized tissues induced by neonatal mouse molar pulp isografts in the spleen 465

J. C. RODDA, J. PALAMARA, P. P. PHAKEY and A. C. SMILLIE — The polarized light microscopy and ultrastructure of Polynesian pigmented tooth enamel 475

NUMBER 7

I. SEMBA — A histometrical analysis of age changes in the human lingual artery 483

E. LOZUPONE and A. FAVIA — Effects of a low calcium maternal and weaning diet on the thickness and microhardness of rat incisor enamel and dentine 491

J. D. RUDNEY — Relationships between human parotid saliva lysozyme lactoferrin, salivary peroxidase and secretory immunoglobulin A in a large sample population 499

A. A. MARINO and B. D. GROSS — Piezoelectricity in cementum, dentine and bone 507

L. MIRELS, B. J. BAUM and E. KOUSVELARI — Dissociation between c-fos gene expression and DNA synthesis in rat parotid glands 511

Y. HAYASHI — Ultrastructural demonstration of the carbohydrate in developing rat enamel using soybean agglutinin–gold complexes 517

T. OKUI, I. MORITA, I. SUNADA and S. MUROTA — Involvement of arachidonic acid metabolites in increases in vascular permeability in experimental dental pulpal inflammation in the rat 523

K. K. SMITH — Histological demonstration of muscle spindles in the tongue of the rat 529

J. R. MARTINEZ and S. BARKER — Inhibition of ^{36}Cl uptake by stilbene sulphonic acid derivatives and loop diuretics in rat submandibular salivary acini 535

B. S. SPOONER, A. PAULSEN and M. S. SULLINS — β-Xyloside effects on basal lamina structure and anionic site distribution in the embryonic mouse submandibular salivary gland 541

J. M. FERREIRA, J. PALAMARA, P. P. PHAKEY, W. A. RACHINGER and H. J. ORAMS — Effects of continuous-wave CO_2 laser on the ultrastructure of human dental enamel 551

K. M. POSTLETHWAITE and G. J. ROBERTS — A morpnometric and quantitative microradiographic study of dental tissues in the hypopituitary dwarf mouse 563

Y. ABIKO, M. HAYAKAWA, H. AOKI, S. SAITO and H. TAKIGUCHI — Cloning of the gene for cell-surface protein antigen A from *Streptococcus sobrinus* (serotype *d*) 571

Short Communications

A. VISSINK, E. J. 's-GRAVENMADE, A. W. T. KONINGS and E. E. LIGEON — An adaptation of the Lashley cup for use in rat saliva collection 577

J. W. Smalley, C. A. Shuttleworth and A. J. Birss — Collagenolytic activity of the extracellular vesicles of *Bacteroides gingivalis* W50 and an avirulent variant W50/BE1 — 579

J. Okazaki, Y. Gonda and M. Nishiura — A biochemical study of glycosaminoglycans in the palatal rugae of the monkey (*Macaca fascicularis*) — 585

R. J. Waddington, G. Embery and K. S. Last — Glycosaminoglycans of human alveolar bone — 587

J. H. M. Wöltgens, Th. J. M. Bervoets, D. M. Lyaruu and A. L. J. J. Bronckers — The effects of cadmium on the *p*-nitrophenyl phosphatase and inorganic pyrophosphatase activities of alkaline phosphatase in developing hamster tooth germs — 591

NUMBER 8

R. M. Frank, M. L. Sargentini-Maier, J. C. Turlot and M. J. F. Leroy — Zinc and strontium analyses by energy dispersive X-ray fluorescence in human permanent teeth — 593

S. Matsuo, H. Nakahara, Y. Takano, H. Ichikawa, S. Wakisaka and M. Akai — Localization of two distinct acid phosphatases in secretory ameloblasts of rat molar tooth germs — 599

G. B. Proctor, B. Asking and J. R. Garrett — Effects of secretory nerve stimulation on the movement of rat parotid amylase into the circulation — 609

S. D. Hogg and I. Lightfoot — Interaction of streptococcal lipoteichoic acid with artificial tooth pellicle — 615

M. Kjaeldgaard, F. Lagerlöf and A. Kjaeldgaard — Effect of flow rate on tissue plasminogen activator activity in human parotid saliva — 621

A. L. J. J. Bronckers, Th. J. M. Bervoets, D. M. Lyaruu and J. H. M. Wöltgens — Antagonism of fluoride toxicity by high levels of calcium but not of inorganic phosphate during secretory amelogenesis in the hamster tooth germ *in vitro* — 625

R. L. Speirs and P. M. Dean — Toffee clearance and lingual sensory and motor activities in normal children and in children with articulation problems of speech — 637

Y. Munakata and S. Kasai — Comparison of jaw-opening reflex response elicited by anterior and posterior tooth tapping in the cat — 645

H. Watanabe, P. D. Marsh and L. Ivanyi — Antigens of *Actinobacillus actinomycetemcomitans* identified by immunoblotting with sera from patients with localized human juvenile periodontitis and generalized severe periodontitis — 649

T. Hanioka, S. Shizukuishi, A. Tsunemitsu, S. Joh, K. Sugiyama and N. Sato — Haemoglobin concentration and oxygen saturation in dog gingiva with experimentally induced periodontitis — 657

M. Uemura, K. K. Park, G. K. Stookey and K. Konishi — Effects of molybdenum on human enamel fluoride uptake and experimental rat dental caries — 665

S. Morge, E. Adamczak and L. Å. Lindén — Variation in human salivary pellicle formation on biomaterials during the day — 669

Short Communication

A. Aguirre, B. Mendoza, M. J. Levine, M. N. Hatton and W. H. Douglas — *In vitro* characterization of human salivary lubrication — 675

NUMBER 9

L. J. Walsh, F. Stritzel, K. Yamazaki, P. S. Bird, E. Gemmell and G. J. Seymour — Interleukin-1 and interleukin-1 inhibitor production by human adherent cells stimulated with periodontopathic bacteria — 679

D. J. Ostry and J. R. Flanagan — Human jaw movement in mastication and speech — 685

D. O. Quissell, K. A. Barzen and L. M. Deisher — Evidence against a direct role for protein kinase *C* in rat submandibular salivary mucin secretion 695

A. B. Moody, R. M. Browne and P. P. Robinson — A comparison of monopolar and bipolar electrical stimuli and thermal stimuli in determining the vitality of human teeth 701

S. Kim, J. E. Dörscher-Kim and H. H. Lipowsky — Quantitative assessment of microcirculation in the rat dental pulp in response to alpha- and beta-adrenergic agonists 707

W. L. Hylander and K. R. Johnson — The relationship between masseter force and masseter electromyogram during mastication in the monkey *Macaca fascicularis* 713

P. van der Bijl, J. de Waal, I. A. Botha and W. P. Dreyer — Assessment of occlusal tooth wear in vervet monkeys by reflex microscopy 723

K. S. Türker and T. S. Miles — Surface electromyography, force and single motor-unit data for inhibitory reflex responses in human masseter at two levels of excitatory drive 731

N. Vigneswaran, E. Haneke and O. P. Hornstein — A comparative lectin histochemical study of major and minor salivary glands with special reference to the labial glands 739

T. Nakano and P. G. Scott — A quantitative chemical study of glycosaminoglycans in the articular disc of the bovine temporomandibular joint 749

Short Communication

J. D. Harrison and D. W. Auger — Ultrastructural morphology of secretory granules in pleomorphic adenoma of human parotid and submandibular salivary glands 759

NUMBER 10

B. J. Moxham and B. K. B. Berkovitz — A comparison of the biomechanical properties of the periodontal ligaments of erupting and erupted teeth of non-continuous growth (ferret mandibular canines) 763

P. Spencer, C. Barnes, J. Martini, R. Garcia, C. Elliott and R. Doremus — Incorporation of magnesium into rat dental enamel and its influence on crystallization 767

J. Tagami, L. Tao, D. H. Pashley and J. A. Horner — The permeability of dentine from bovine incisors *in vitro* 773

A. A. Monteiro, H. Svensson, S. Bornmyr, M. Arborelius and S. Kopp — Comparison of ^{133}Xe clearance and laser Doppler flowmetry in assessment of blood flow changes in human masseter muscle induced by isometric contraction 779

N. O. Salako and I. Kleinberg — Incidence of selected ureolytic bacteria in human dental plaque from sites with differing salivary access 787

P. Birek, C. A. G. McCulloch and C. M. Overall — Measurements of probing velocity with an automated periodontal probe and the relationship with experimental periodontitis in the Cynomolgus monkey (*Macaca fascicularis*) 793

H. J. Busscher, H. M. W. Uyen, I. Stokroos and W. L. Jongebloed — A transmission electron microscopy study of the adsorption patterns of early developing artificial pellicles on human enamel 803

M. G. Humphreys-Beher — Restoration of α-lactalbumin-inhibited rat parotid salivary gland hypertrophy and hyperplasia by agents specific for membrane glycoprotein *N*-acetylglucosamine 811

C. A. N. Rankine, T. J. Prihoda, K. R. Etzel and D. Labadie — Plaque fluid pH, calcium and phosphorus responses to calcium food additives in a chewable candy 821

Short Communications

M. D. P. Willcox, D. B. Drucker and R. M. Green — Comparative cariogenicity and dental plaque-forming ability in gnotobiotic rats of four species of mutans streptococci 825

S. D'Alessandro, H. M. Curbelo, O. R. Tumilasci, J. A. Tessler and A. B. Houssay — Changes in human parotid salivary protein and sialic acid levels during pregnancy 829

T. Lombardi and M. Castellucci — S-100 protein localization in human adult dental pulp — 833

R. S. Corruccini and K. Sharma — Odontometric asymmetry in Punjabi twins with special reference to methods for detecting spurious genetic variance — 839

NUMBER 11

D. Beighton and J. S. C. Life — Trypsin-like, chymotrypsin-like and glycylprolyl dipeptidase activities in gingival crevicular fluid from human periodontal sites with gingivitis — 843

Y. Tojyo, K. Okumura, M. Kanazawa and Y. Matsumoto — Effect of cytochalasin D on acinar cell structure and secretion in rat parotid salivary glands *in vitro* — 847

R. W. Jow and G. T. Clark — Endurance and recovery from a sustained isometric contraction in human jaw-elevating muscles — 857

B. Asking and N. Emmelin — Secretion of amylase from the rat parotid salivary gland after degeneration of the auriculotemporal nerve — 863

J. Luker, I. J. Crane, C. Scully and S. S. Prime — The expression of anchorage independence by malignant rat oral keratinocytes after colony formation *in vitro* and tumour formation *in vivo* — 867

M. Héritier, M. Dangleterre and Y. Bailliez — Ultrastructure of a new generation of odontoblasts in grafted coronal tissues of mouse molar tooth germs — 875

J. T. Chan, C. C. Qiu, G. M. Whitford, J. G. Weatherred and R. K. Clardy — The distribution of fluoride of prenatal origin in the rat—a pilot study — 885

H. C. van der Mei, M. J. Genet, A. H. Weerkamp, P. G. Rouxhet and H. J. Busscher — A comparison between the elemental surface compositions and electrokinetic properties of oral streptococci with and without adsorbed salivary constituents — 889

S. K. Kim, T. P. Jones and L. M. Cuzzort — Protein synthesis and amylase messenger RNA content in rat parotid salivary glands after total or partial stimulation with isoproterenol — 895

B. Bonte and D. van Steenberghe — Single motor unit and surface electromyogram analysis of human jaw-closing muscle reflexes after tapping an upper tooth — 903

J. Endo, M. Otsuka, E. Ohara, M. Sato and R. Nakamura — Cleavage action of a trypsin-like protease from *Bacteroides gingivalis* 381 on reduced egg-white lysozyme — 911

R. W. Brinck and T. W. Hurley — Regulation of cytosolic Ca^{2+} in resting and stimulated rat submandibular salivary gland acini — 917

K. Asai, J. Kishi, H. Nakamura and T. Hayakawa — Characteristics of collagenase in experimental periapical granulomas from the teeth of dogs — 923

NUMBER 12

M. F. Teaford and K. E. Byrd — Differences in tooth wear as an indicator of changes in jaw movement in the guinea pig *Cavia porcellus* — 929

R. W. A. Linden and B. J. J. Scott — The effect of tooth extraction on periodontal ligament mechanoreceptors represented in the mesencephalic nucleus of the cat — 937

K. S. Türker, T. M. Wilkinson and T. S. Miles — A comparison of the masseteric silent period in temporomandibular joint dysfunction and normal human subjects by surface electromyography and single motor-unit recordings — 943

M. A. Montenegro and H. Palomino — Inhibition of palatal fusion *in vitro* by indomethacin in two strains of mice with different H-2 backgrounds — 949

M. J. Larsen and S. J. Jensen — The hydroxyapatite solubility product of human dental enamel as a function of pH in the range 4.6–7.6 at 20°C — 957

M. J. Larsen and S. J. Jensen — Stability and mutual conversion of enamel apatite and brushite at 20°C as a function of pH of the aqueous phase — 963

M. J. Larsen and S. J. Jensen	Solubility, unit cell dimensions and crystallinity of fluoridated human dental enamel	969
S. E. Feinberg, S. E. Weisbrode and G. Heintschel	Radiographic and histological analysis of tooth eruption through calcium phosphate ceramics in the cat	975
A. Naini, B. Morgan and I. D. Mandel	Effect of protein malnutrition on the composition of submandibular glands of aged rats	985
M. D. McKee, H. Warshawsky and A. Nanci	Cyclical incorporation of ^{33}P into rat incisor enamel *in vivo* as visualized by whole-mount radioautography	989
J. E. Tyler and D. F. G. Poole	The rapid measurement of fluoride concentrations in stored human saliva by means of a differential electrode cell	995
A. Chiarenza, J. C. Elverdin, E. Espinal and M. J. Giglio	Effects of cadmium on the function and structure of the rat salivary glands	999
R. J. Hinton	Effect of condylotomy on matrix synthesis and mineralization in the rat mandibular condylar cartilage	1003
